Group 3

4 Themes

TOPIC

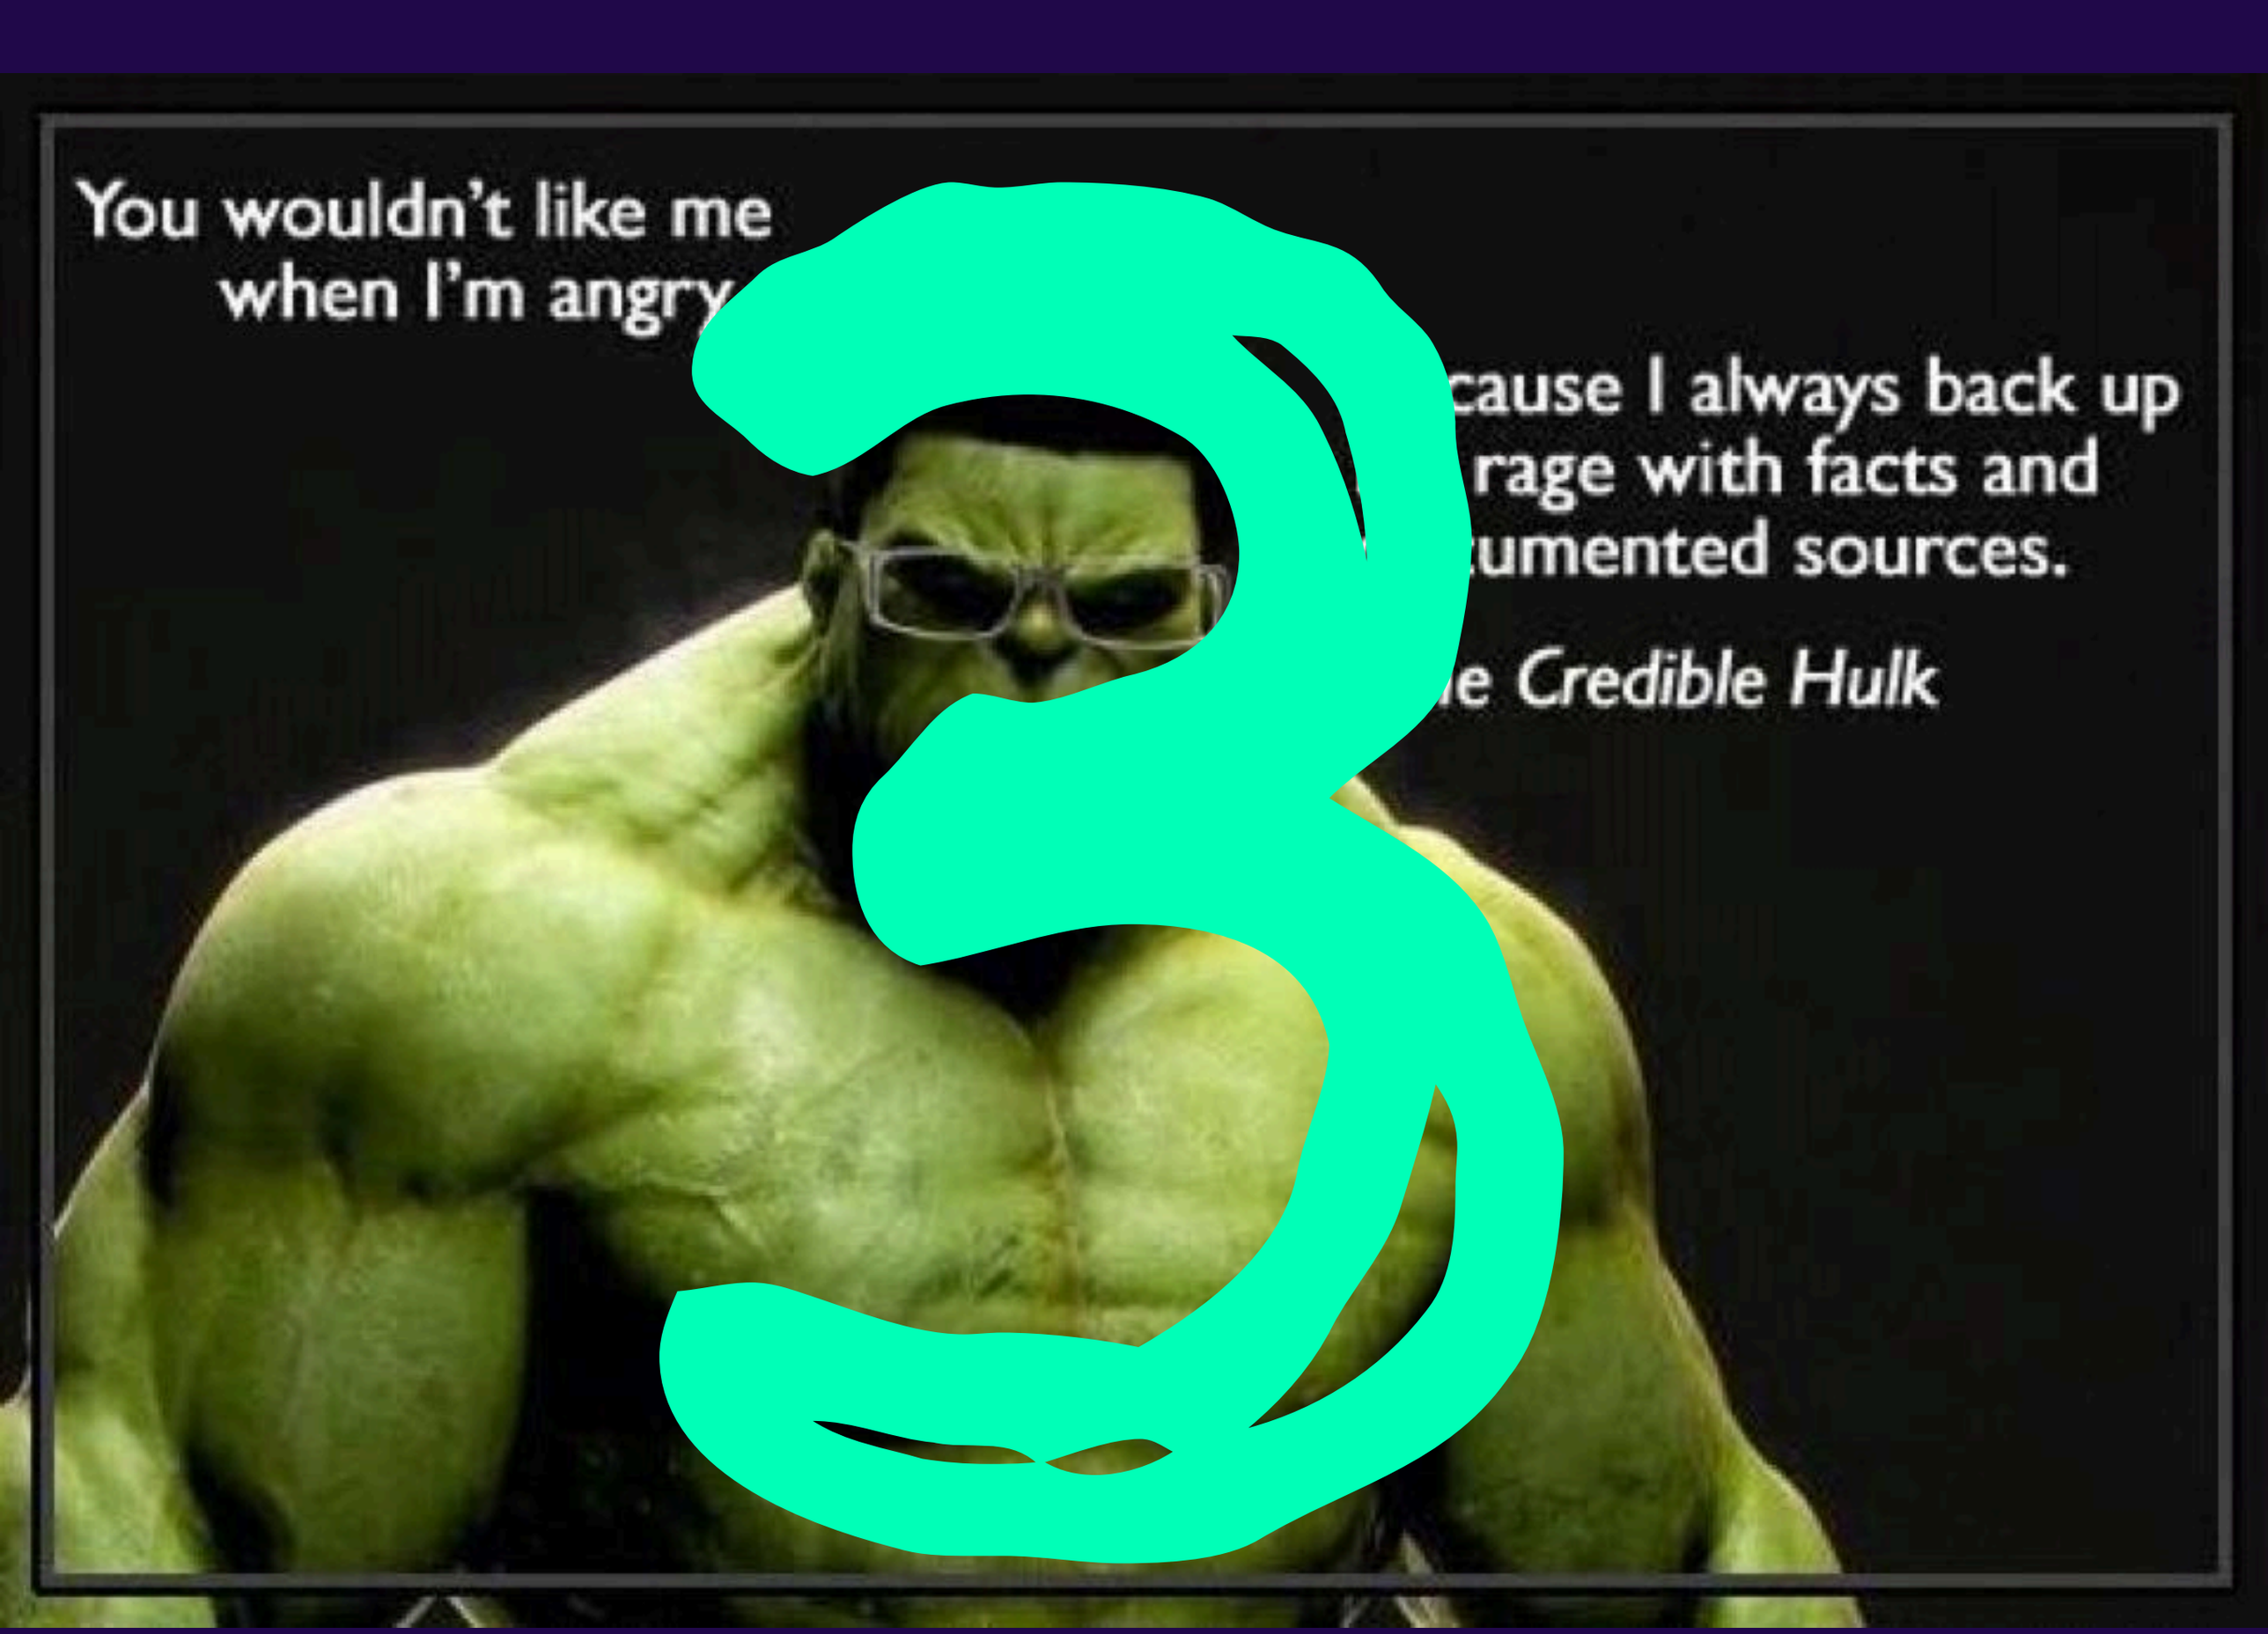
Topic Selection

- Can the topic selection -> report process work quickly enough to fit in with national timelines
- How can we horizon scan? Can EMA help? Can Payers Help?
- Can we systematically select topics?
- Can we know national plans? Can Payers Help?
- There must be a decision to inform, else what's the point?

Quality

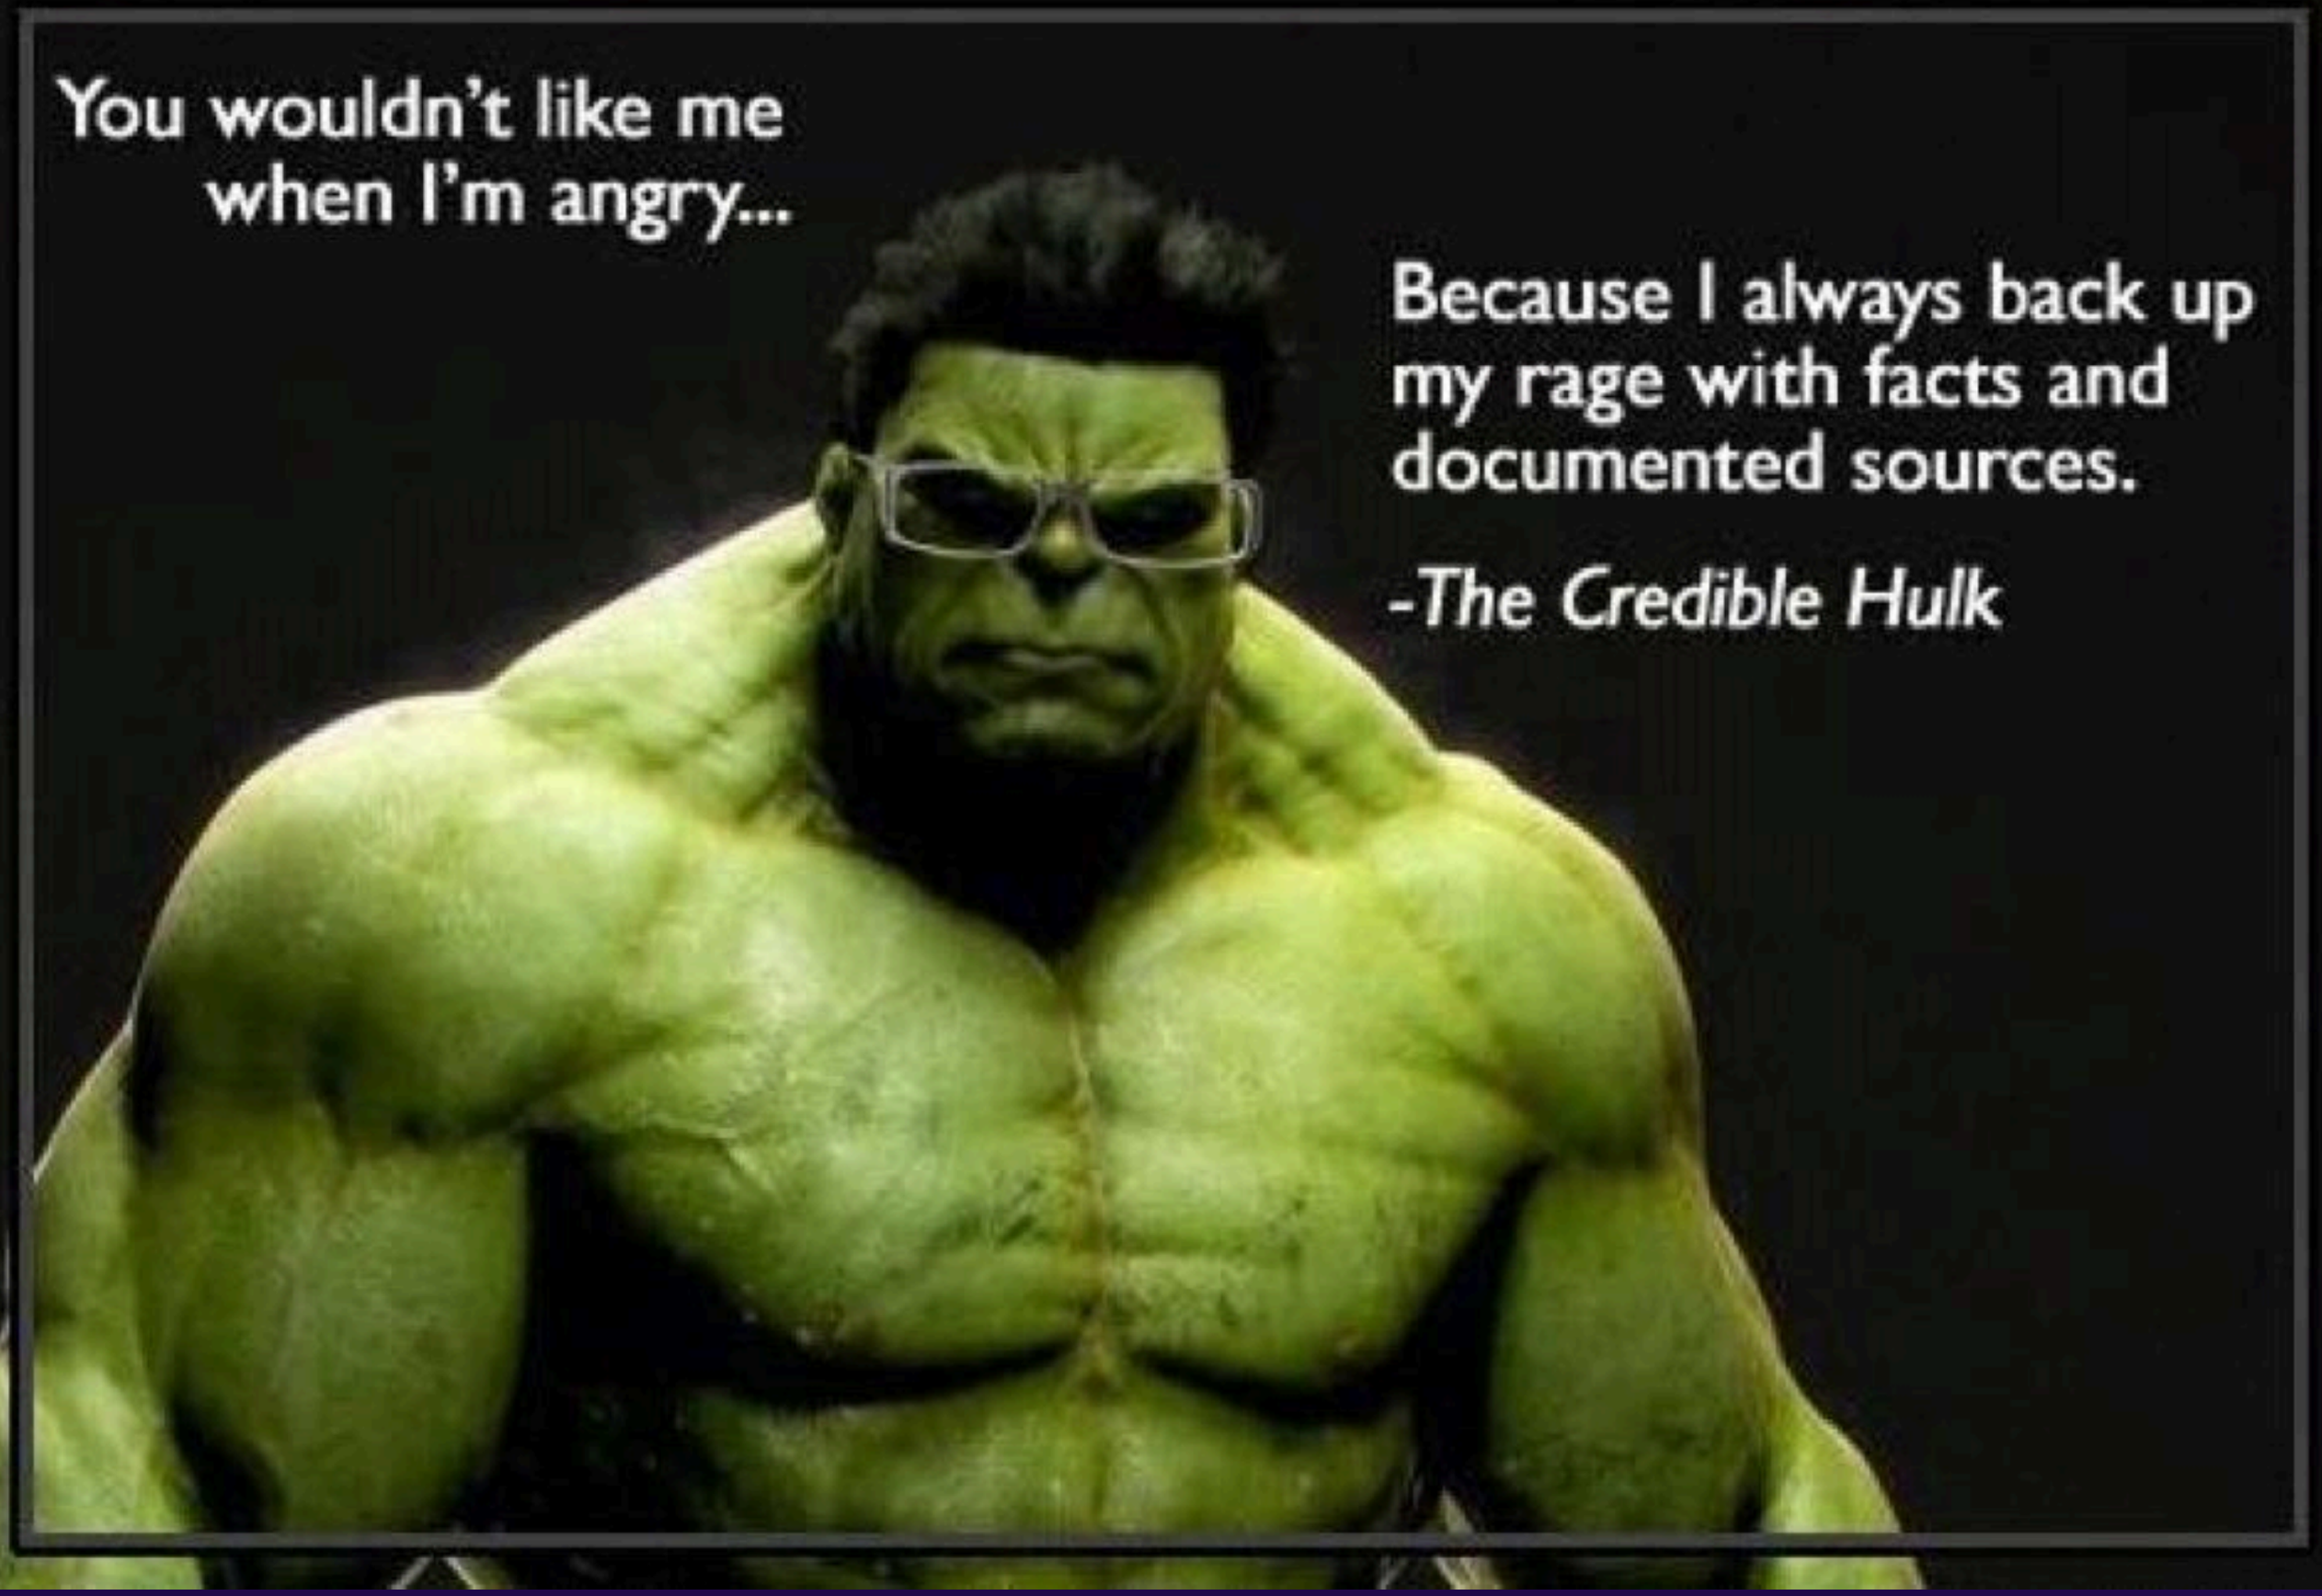
- Mentoring
- Familiarity with Core Model
- Standard operating procedures
- Do we know what the needs of national and regional HTA are? What will happen in the next year?

You wouldn't like me
when I'm angry



cause I always back up
rage with facts and
umented sources.

e Credible Hulk



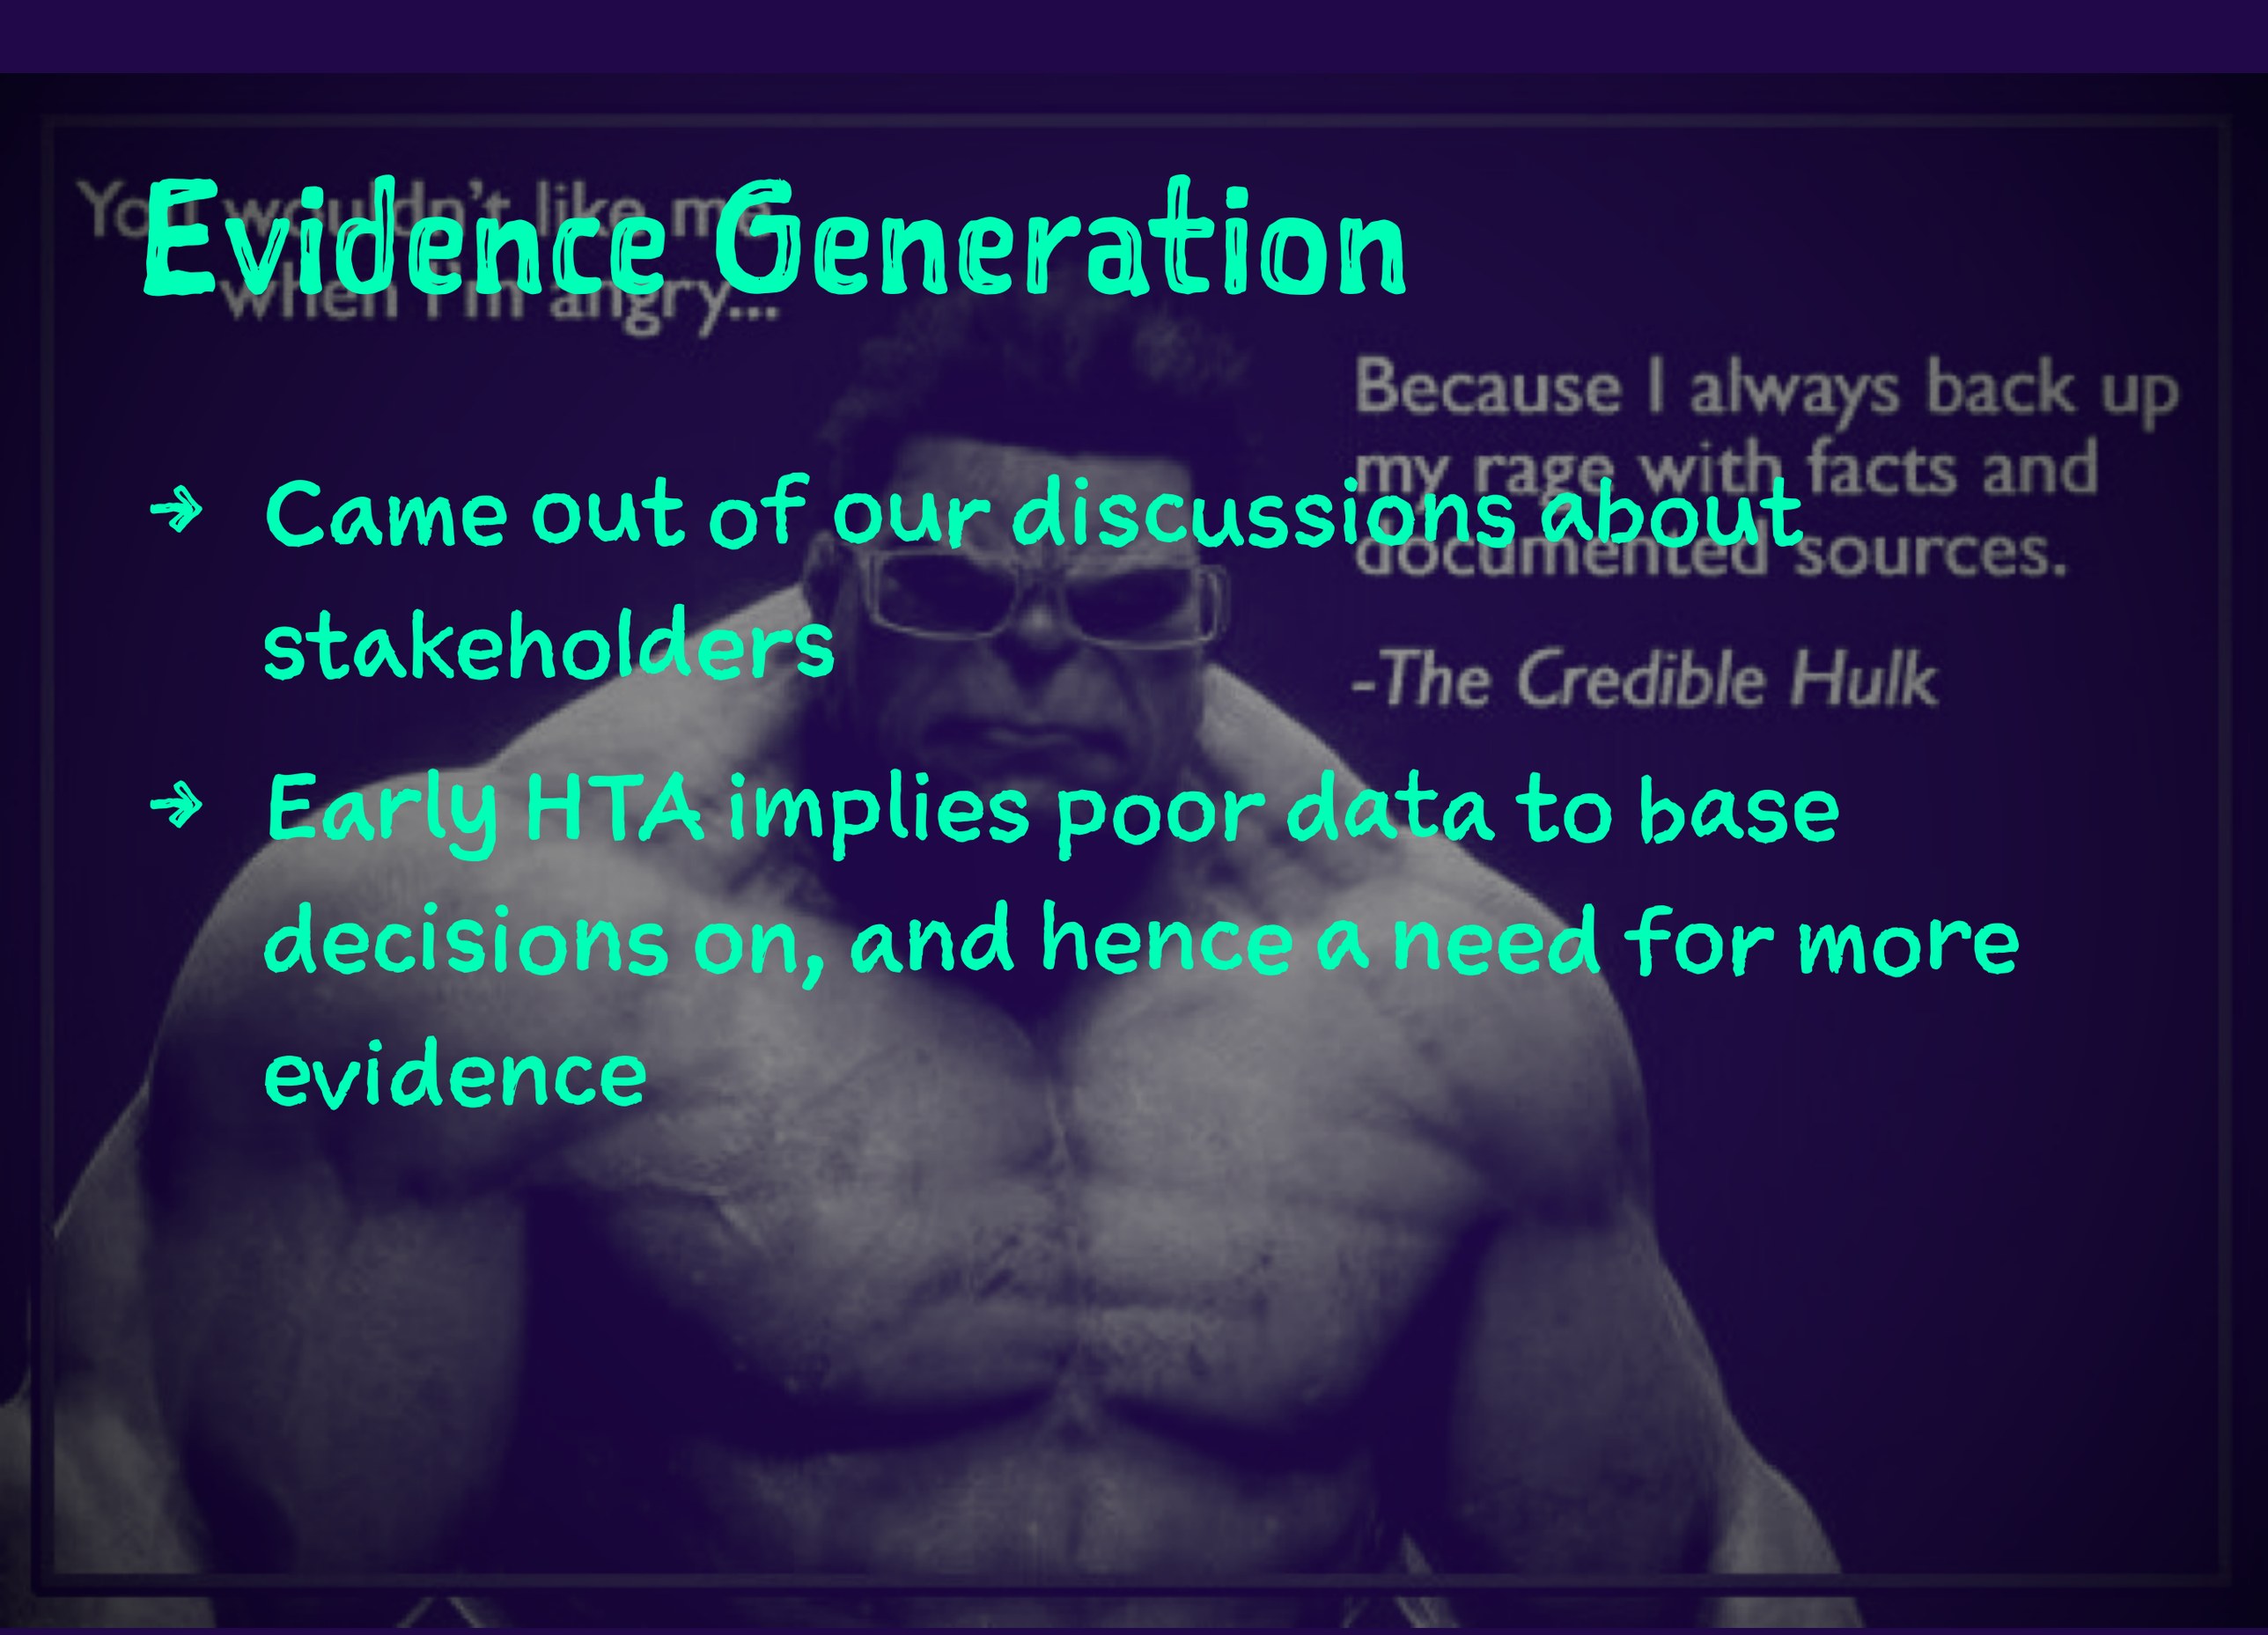
You wouldn't like me when I'm angry...
Because I always back up my rage with facts and documented sources.
-The Credible Hulk

"You wouldn't like me when I'm angry... because I always back up my rage with facts and documented sources."

★

The Credible Hulk

Evidence Generation



- Came out of our discussions about stakeholders
- Early HTA implies poor data to base decisions on, and hence a need for more evidence

Not Just trials

Post Marketing Evidence Generation

- Coverage with with Evidence Development
- Registries
- Cohort Studies
- Routine Data
- etc

Can we pursuade payers to only pay in the context of evidence development?

21

Academics

- → methodology support
- → evidence generation
- → report reviews

Stakeholders

- → especially non-industry

EUnetHTA income generation

- → Fee for service to deal with requests for input
